Dear Parents/Carers

Year 7 Report One

Your child's first of the two Year 7 Reports they will receive this year is now available via Edulink (under Documents). This report allows you to see pupils' attitudes to classwork and homework, as well as their behaviour for learning. Year 7 pupils will have a further report later this academic year, that will include information on academic attainment and progress, which will be followed by a Parents' Evening.

The information below will support you with interpreting your child's report:

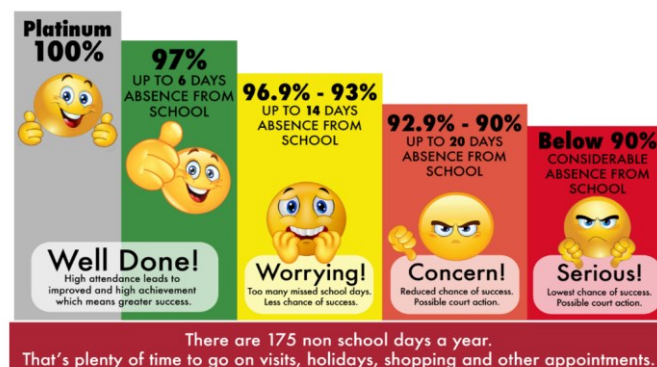

Attitudes to Learning, Homework and Behaviour for Learning:

These are expressed in four levels and a full description can be found at the bottom of this letter and report:

World Class
Good
Requires Attention
Significant Concern

Attendance:

Attendance percentages can be deceiving. For example, were one to achieve 90% in an examination, this would likely feel like a great result. However, a pupil with attendance below 90% is officially 'persistently absent' as attendance of 90% equates to an average of one school day missed per fortnight. Attendance of 80% equates to an average on one day missed per week. Therefore, attendance at school is extremely important if pupils are to achieve their full potential, as for every school year a child's attendance is below 90% research has shown that they are likely to achieve half-a-GCSE-grade lower in Year 11.

Should you have any queries in relation to individual subjects, please contact your child's teacher and/or the relevant subject leader via Edulink and we will respond when we return in the New Year.

Yours faithfully
